Bogdan Didenko | Google Scholar: <https://scholar.google.com/citations?user=Kj-mmWgAAAAJ&hl=en>

Profile summary: WebSpellChecker LLC; Lviv Polytechnic National University. Google Scholar reports 31 citations as of 9 July 2026.

Year	Publication	Authors	Venue	Citations
2026	Data-Efficient Adaptation of Multilingual LLMs to Ukrainian	Y. Paniv, B. Didenko, M. Haliuk, V. Humennyi, A. Kravchenko, R. Kyslyi, et al.	Proceedings of the Fifth Ukrainian Natural Language Processing Conference	
2023	RedPenNet for Grammatical Error Correction: Outputs to Tokens, Attentions to Spans	B. Didenko, A. Sameliuk	Proceedings of the Second Ukrainian Natural Language Processing Workshop	10 citations
2019	Multi-headed Architecture Based on BERT for Grammatical Errors Correction	B. Didenko, J. Shaptala	Proceedings of the Fourteenth Workshop on Innovative Use of NLP for Building Educational Applications	21 citations

Relevance to the application: these works demonstrate experience with transformer architectures, multilingual LLM adaptation, reproducible NLP benchmarking, and applied model development, which directly supports the proposed comparison of classical ML, deep learning, and foundation-model approaches.
